

## Final Report on 3A/3C and 4B catchment project work

For the past two years, the AZGFD, Permittee of the Heber allotment Nelson Shirley and the Sitgreaves National Forest have worked on a landscape scale basis for the two units cited above. The AZSFWC through a grant of \$20,000.00 in addition to the \$6,000 from the Arizona Deer Association requires a breakdown of where the monies were spent. I am noting the documents that the AZGFD has supplied with costs for completed projects. Actual dollars for some of our catchments work is also attached. Please let me know if there are any more items that need to be addressed.
