Summarize Project Accomplishments : The Arizona Deer Association acquired the water wagon and trailer set-up in November 2020, although we were still purchasing accessories and operating equipment as late as March 2021. From November until present day, we have used it to haul 40,000 gallons of water to wildlife catchments and tanks in GMU 22 Bar X Ranch, and five other locations and in GMU 23, Brown Ranch, Allotment H4, and multiple other locations. These water catchments benefit not only deer, but also small game species and birds, mountain lions, bear, javelina, etc.

Arizona Deer Association Monthly Raffles – Turning Prizes into Water

Each month the ADA conducts raffles on our website to raise money for numerous projects that benefit Arizona's deer population as well as other wildlife. With the severe drought conditions the state has been experiencing, the ADA recently ran a Custom Rifle Raffle with all the proceeds going to the Game and Fish Department's Water for Wildlife Campaign.

Arizona Deer Association Purchases New Water Wagon for Critical Water Distribution

The ADA recently purchased our latest tool to help Arizona's deer! This new water wagon will be kept busy visiting tanks and catchments that are in desperate need right now.

We want to thank all of our members, banquet attendees and raffle ticket buyers for making this purchase possible. We are also incredibly grateful for the financial grant from the Arizona Sportsmen for Wildlife Conservation License Plate Grant fund, which helped to pay for this water wagon and equipment. 🍷
