Summarize Project Accomplishments : With this grant, 29 boys and girls experienced the positive health benefits and educational lessons of the great outdoors. During these camps, the youth identified wildlife, spent time fishing and catching crawdads at Reservation Lake, Big Lake and River Reservoir in the White Mountains. They also learned how to clean and cook the fish they caught. The youth went horseback riding into Black River and had lunch on horseback. For many of these youth, this was their first experience of tent camping, fishing, horseback riding and sitting around a campfire in the outdoors.

Measurable Results (Fill in all that are applicable):
