Summarize Project Accomplishments: With this grant, 15 boys and girls experienced the positive health benefits and educational lessons of the great outdoors. During these 2 camps, the youth learned how to set up a tent and how to set up a shelter; identified various wildlife tracks; were given gun safety lessons and then did some target shooting with BB guns; and did some hiking on both the East Fork and West Fork of Black River, Thompson Creek, and Nine Springs. The youth also spent time fishing and catching crawdads at Black River, River Reservoir, and Thompson Creek in the White Mountains. They also learned how to clean and cook the fish they caught. For all of these youth, this was their first experience of tent camping, target shooting, hiking, fishing, and sitting around a campfire in the outdoors.
