**Summarize Project Accomplishments :** This project was to build a trailer for volunteers to use to haul water in Region II AZGFD, we have been using the trailer since late summer 2021.

**Measurable Results** (Fill in all that are applicable):

**Attendees** (If project was an event, list total # of participants, excluding staff, visiting parents, etc): \_\_\_\_\_

**Visitors** (If the project is an interpretive display, list total # of annual visitors): \_\_\_\_\_

**Brochures, Pamphlets, etc.** (If the project is a brochure, publication, poster or video, list the total produced and distributed): \_\_\_\_\_

**Other** (please explain): Hauling water in the past took a toll on our trailers and trucks. Using Dykstra we have been able to build strong trailers that have minimized the breakdowns. The tanks are oval and lower than our other trailers so much easier to tow and maneuver. We have added suspension bumpers to minimize damage from the harsh road conditions.

**Budget** (specifically describe how AZSFWC funds were used; e.g. program promotion, type of equipment, materials and/or supplies, etc.)
