

AZ Sportsmen For Wildlife Conservation GRANT COMPLETION REPORT

Project Title: Grant Request for Transplant Trailer Boxes

Organization: ADBSS

Grant # 2023-Q2-02

Event/Project Completion Date: 12/20/23

Project Location: AZ Game and Fish Development Branch yard

Submitted By: Gary Drake

E-mail: garyjanet111@msn.com

Phone #: 602 920 8372

Today's Date: 12/20/23

AZSFWC Recognition:

AZSFWC Logo and Link to AZSFWC on organization's website? (attach screen print image) Yes No

License Plate Image w/link to MVD on organization's website? (attach screen print image) Yes No

AZSFWC Logo displayed at event? (attach photo(s) Had AZSFWC cards in Truck Yes No

AZSFWC recognized in marketing materials & post event articles? (Spring issue of Rams Horn, p 14) Yes

List any social media recognition of AZSFWC (include all screen print images) Yes No

Was there any media or press coverage? AZ Game and Fish is planning media coverage on the first transplant

List any other recognition? AZSFWC logos on all trailers

Summarize Project Accomplishments : 5 boxes were built after consulting the Department to fit on the Department's existing trailer along with two pick-up sized boxes for smaller and more mobile captures. They all were powder coated and fitted with poly-max board. A smaller, more maneuverable trailer was purchased and fitted for transplant service.

Measurable Results (Fill in all that are applicable):

Attendees There were 4 weekend workdays with an average of 15 volunteers per weekend: _____

Visitors (NA): _____

Brochures, Pamphlets, etc.: Each of the transplant boxes have the AZSFWC logo on them plus the new Game and Fish aluminum trailer has the logo also. Unable to predict with any accuracy how many transplants there will be per year for Sheep and Antelope, but every transplant will be an opportunity for the public to see the logo. _____

Other (please explain): Transplants are an important tool for the Department to utilize to increase wildlife numbers and strengthen the genetic makeup of the population as a whole. Having the option of choosing from three ways to haul the captured wildlife will improve the effectiveness of wildlife managers during the transplant process. In addition to the Spring issue story ADBSS plans to have a wrap-up article now that the project is complete in a future issue. The Department is planning media coverage for the first transplant.

Budget (specifically describe how AZSFWC funds were used; e.g. program promotion, type of equipment, materials and/or supplies, etc.)

Budget Item	Planned	Actual
-------------	---------	--------

Poly Max sheets cutting cost, expanded metal, channels, nuts,
