**Summarize Project Accomplishments :** 2250 pollinator seed packets containing native Arizona seeds were given out through all Phoenix public libraries, all Glendale public libraries, and 5 public libraries in Yavapai county. Each packet has the AZSFWC logo plus the Quail forever logo. In addition, bulk seed was planted by students at a community college in Maricopa county. The majority of the recipients of these seeds would not normally have direct interaction from AZSFWC or Quail forever which means a positive association with our two organizations because we are helping our environment by supplying Arizona native pollinator seeds.
