2024 -2025 --- AZ Sportsmen for Wildlife Conservation Grant

Successful Grant Completion Summary: Arizona Raptor Center Educational Programs and Eagle Training

Overview

The Arizona Raptor Center (ARC) successfully completed the activities funded by the AZSFWC grant, achieving and exceeding its objectives for educational programs and eagle training. This grant facilitated a significant expansion of ARC's outreach, training capabilities, and overall support for our educational birds.

Educational Programs

ARC planned to deliver 15 educational shows for the public throughout the year. We are pleased to report that we exceeded this goal by conducting 32 shows, reaching almost 8000 people across various demographics and venues. These events ranged from union picnics to high-end hotel gatherings, ensuring a broad impact and widespread dissemination of wildlife education.

Eagle Training

The grant proposal outlined a target of four eagle training trips, focused in the Cochise. In practice, ARC conducted five eagle training sessions, all in Cochise, which proved to be the optimal location this year. The training sessions allowed us to enhance the skills and readiness of our eagles significantly.

Utilization of Grant Funds

The AZSFWC grant was crucial in supporting several key areas:

- **Food for Education Birds of Prey:** The grant enabled us to purchase Cockrill chicks, ensuring our educational birds were well-nourished.
- **Revitalization of Educational Birds Housing Areas:** We successfully replaced some worn out lumber and repaint eagle pens, we also replaced some well need netting .
- **Transportation to Shows for the Public:** The grant covered transportation costs for our raptors to various educational events.
- **Transportation, Lodging, and Meals for Eagle Training Trips:** These expenses were fully supported, ensuring the smooth execution of all training sessions.
- **Medicine for Eagle Training:** Necessary medicine was acquired to enable and protect our eagles during training effectiveness.
- **Maintenance for Vehicles:** Grant funds were used to maintain our vehicles, ensuring reliable transport for our educational programs and training sessions.
- **Volunteer Support**
 - Our dedicated team of volunteers continued to provide invaluable support, contributing thousands of hours annually to various activities, including:
 - Ongoing care, feeding, and support for the raptors.
 - Planning, organizing, and attending educational presentations.
 - Transporting raptors and personnel to and from educational and training events.

Conclusion

The successful completion of this grant period has significantly bolstered ARC's capacity to deliver high-quality educational programs and effective eagle training. By surpassing our goals and expanding our outreach, we have reinforced our commitment to wildlife education and conservation. ARC is grateful for the support from AZSFWC and looks forward to continuing our mission with renewed vigor.
