**Summarize Project Accomplishments :** AES completed the build of the trailer by Dykstra Machinery, ordered and installed all necessary components and delivered the 1000 Gallon water trailer to AZGFD to be used in Region I office. The trailer will be used by AZGFD and trained volunteers from the local areas. This will help immensely, with the other two trailers that are being built, to allow Region I to get more water into remote troughs in their area. Up until now they have been using old 500 gallon trailers.
